Welcome

- Hola y bueno dias
- Again, a very good morning Ladies and Gentlemen and distinguished guests and very warm welcome to this Technical Committee A.2 session at Palacio Valparaiso 2
- I am Henri Chua from the United Kingdom and the Chair of Technical Committee A.2 Financing, Managing and Contracting Road System Investment 2008-2011
 - I and my committee members are most honoured to host this technical session at this Congress
 - We are excited by the opportunity and thank you for your interest in our work and participation in this session

Technical Committee A.2 Session - Programme

- TC A2 has put together an exciting programme, involving presentations by both committee members as well as invited specialist speakers, including a PIARC prize winner
- In Part 1 we will have 4 presentations focussing on
 - TC A2 and its activities
 - Funding and Financing issues
- After the break Mike Goodale, Canada, will take the chair and in Part 2 again will have 4 presentations focussing on
 - Private sector roles in road operation and maintenance
 - How they are engaged to deliver their services

Speaker # 1 – Mr Gerardo GAVILANES GINERES

- Mr Gerardo Gavilanes Gineres is the Spanish-speaking Secretary of Technical Committee A.2 2008-2011
- Gerardo also held the same position of the prior Technical Committee 1.2 2004-2007
- Gerardo is Deputy Director of the Ministry of Public Works in Spain and is responsible for Statistics
- Gerardo holds a Civil Engineer Master and also a Master in Economics
- Gerardo will make a presentation about the Technical Committee A.2 and its activities during the last 4 years (2008-2011)

Speaker # 2 – Mr Takaaki NAMBU

- Mr Takaaki Nambu is the Work Group 1 Leader Funding and Financing of Technical Committee A.2 2008-2011
- Takaaki was the Japanese member of the prior Technical Committee 1.2 2004-2007
- Takaaki is Executive Director of the Hanshin Expressway Company in Osaka, Japan, and has overall responsibility for highway construction
- Takaaki was a senior civil servant at the Ministry of Construction and is a graduate of Tokyo University
- Takaaki will present the TC A.2's research on Road Funding in PIARC Member Countries

Speaker # 3 – Mr Olivier KOUDOU

- Mr Olivier Koudou is a PhD student at the University of Cocody-Abidjan, Ivory Coast, and his topic of research is on the economics of public transport
- Mr Koudou holds a Master in Economics
- Mr Koudou has published on the politics of rice production in Ivory Coast since 1960
- Dr Koudou will present his research on Sub-Sahara Africa Road Funding and the Case of Ivory Coast

Speaker # 4 – Dr Rafael ALDRETE

- Dr Rafael Aldrete is a Senior Research Scientist at the Texas Transportation Institute and Director of its Center for International Intelligent Transportation Research
- Dr Aldrete has over 15 years of experience in transport management consulting and research, specialising in project development, infrastructure management, innovative finance and public-private partnerships
- Dr Aldrete holds PhD and MSc in Civil Engineering, University of Texas (Austin) and B.Sc. in Civil Engineering, Universidad Autónoma de San Luis Potosi (Mexico).
- Dr Aldrete will present on his research on PPPs and Contingent Liabilities – a Texan Case

Speaker # 5 – Jean-Francois LANGUMIER

- Jean Francois Langumier is currently with the private sector French toll company : Autoroute Paris-Rhine-Rhone.
- Responsible for forecasting and regional development.
- Previously worked in the French Ministry for Land Use Planning and the Prime Minister's Delegation on Regional Planning.
 - Studied Political Science, Law and Urbanism.
- Presentation will focus on private sector roles in financing and contracting road investments

Speaker # 6 - Brian NOBLE

- Brian is a civil engineer with 40 years of experience.
- Works for Main Roads, Western Australia State government.
- Held a variety of positions in road construction and maintenance.
- Currently Director, Operating Asset Management - focused on long term maintenance contracts.
- His presentation will focus on Contractual Arrangements for Private Sector Maintenance Services in PIARC countries.

Speaker # 7 – Ms Maria SARUBIN

- Maria started with Main Roads in 2007 and has worked in varied roles within different Main Roads Directorates as part of their Development Employee Program.
- Maria's experience includes development of corporate strategy in Perth, major capital works on the Great Northern Highway and a regional rotation in Kimberley Region.
 - She has specialized in relationship-based contracting as an important strategic approach, for both Main Roads and private industry.
- This experience provided the opportunity to write her paper on Integrated Services in Western Australia , submitted to the World Road Congress, that was awarded the 'Young Professionals' Prize.
